

The **Association of British Pewter Craftsmen** has a revamped website (at www.britishpewter.co.uk). Copies of the regular Newsletters are available on the site along with much information about the Association and its work

Its next Council Meeting will be held in Sheffield on 17th April. For information, or if you want to attend, please contact [Ms Cathy Steele](#).

The **European Pewter Union's** Annual General Meeting will also be held in Sheffield this year. It is being hosted by the ABPC over the weekend of 10/12th May. The ABPC have arranged an interesting programme for visitors in addition to the AGM itself.

The programme includes:

- Manufacturer visits on Friday afternoon;
- Dinner on Friday night, at the Kelham Island Industrial Museum;
- The official EPU AGM on Saturday morning, which will include contributions on the current price of tin and the current regulation and legislation position for the pewter trade;
- Lunch and a further Saturday afternoon/evening event should delegates wish it.

The visit to the Museum will include a private tour and the chance to see the world's largest steam engine in action:
