Until Issue 3.2, *The Pewterer* was produced using Apple's xxx. When Apple ceased to support xxx, I moved the holding site to Google's zzz, where it currently resides. It is no longer possible to access xxx; but I have managed to recreate, I hope accurately, the first x number of issues, and to put them onto the Google site.

I believe that if I have not managed to edit the Home page of that site, and particularly the side bar, by the time this issue is published, success will follow shortly thereafter.
